Short Description
What a wonderful rare set!

Description
This is the only one of these sets I have seen so it’s pretty rare. A cocktail shaker, 4 glasses and a matching tray. The cocktail shaker, the tray edge and the glass stems are all solid brass and come with a coating to keep them from tarnishing but they may need a little polishing considering their vintage. All are marked Farber Bros. As shown and the tray still has the original label on the bottom. The only flaw at all is a split on the shaker top by the edge as shown and the tray bottom slightly warped. It is gorgeous.
