

Mint Chase White Doric Cocktail Shaker set, Original Box

Availability: Out Of Stock

Price: \$980.00

Short Description

Great looking mint condition Chase White Doric Cocktail Shaker in box and cups

Description

This is a Chase White Doric Cocktail Shaker set all in mint condition! It has the Blue Moon Cocktail shaker in the original marked box, with this top it is the White Doric cocktail shaker. It includes 6 Matching White Chase Doric cups all in perfect shape. According to my friend Steve Visakay's wonderful book this set was produced from 1935 to 1941. There is a small flyer in the box with the packed by inspector on one side and cleaning instructions on the other. The shaker and cups are all marked on the bottom, they are all shiny and bright inside and out and no dents, dings, plate loss or any flaws. All of the items are as close to mint as if you bought them today.

Cleaning Instructions

Chromium Finished Articles are easily kept bright and new looking by washing in luke-warm soapy water, rinsing in clear water, and drying with a soft cloth. Those with composition handles or knobs should not be subjected to boiling or very hot water.

Copper Articles have their finish protected with a coating of clear lacquer to keep them bright. To preserve this coating, they should not be placed in very hot water—luke warm water and soap will clean them. After continued use, the lacquer may begin to wear off. When it does, remove it entirely with alcohol. Then polish occasionally with any good metal polish bought from a reliable department or hardware store.
