

Jingle Bell Vintage Cocktail Shaker

Availability: In Stock

Price: \$480.00

Short Description

Great fun. Vintage 14" Cocktail Shaker shaped like a snowman with jingle bells attached.

Description

This is a tall, great looking, vintage cocktail shaker ca 1935, with three graduated balls resembling a snowman. There are 4 jingle bells attached on the outside so that they jingle when shaken even when the shaker is full. The condition is very good outside And good inside. The bottom is stamped Patpen. It is really nice looking and probably the only thing of notice is that two of the bells have been replaced, only noticed because they are attached differently than the other two and from the other Shaker I have listed but without close observation they all look the same. It unscrews by the top ball to fill and the end of the shaker cap unscrews to strain and dispense. Like Christmas all Year.
