Short Description

Rooster Cocktail Shaker Set, RARE find! My collection.

Description

This wonderful cocktail shaker set from the 1920's is in the shape of a Rooster. It is in like new museum quality condition which is very rare at around 80 years old. The Shaker is huge at about 14 1/4" tall with a very ornately curved tail that serves as the handle. The head comes off to put in the ingredients and the tongue unscrews to pour the drink. The bottom is stamped " W B 3880 Copyright USA ". It has a threaded screw cap with a rubber stopper that is like new. It includes 6 of the extremely rare rooster cups with the original glass inserts all of which have no chips, cracks or other issues. I'm pretty sure you won't find another set in this shape for this price.
