Description

This super rare, iconic cocktail shaker set is gorgeous and part of my personal collection. Made by Revere it is the Empire cocktail shaker set, the shaker graces the cover of Stephen Visakay's wonderful book, Vintage Barware. It has a great, tall butterscotch colored finial, the 5 cups all have the matching bases and the tray has the same colored, matching handles, the tray is very rare with the original bakelite butterscotch color handles. Shaker is in like new condition, cups are excellent and the tray is also, other than some surface scratches. Great for accomplished collectors!
