Availability: Out Of Stock

Price: \$3,800.00

Short Description

This is the only one I've ever seen or owned!

Description

This is a Cocktail Shaker in the shape of a Rocket Ship. It is made in England by Dunhill and marked as such. It is in great shape with a pinhead size indent to the top and everything else straight and shiny other than the inside could use a little cleaning as shown. It is the only one I've had in my many years of collecting.
