## Short Description

Complete Golf Bag Cocktail Shaker Set by International Silver. My collection

## Description

This awesome golf bag shaker set is made by International Silver Company. It is ca 1930s and hard to find especially in this condition. The shaker is the later version with a patented Insico cap and stopper rather than the cork on the lid and stopper, very detailed with the leather grain, stitching, straps, handles and all with the great golf ball topper. The six matching cups and matching tray are almost never seen.
