Short Description

Great looking and hard to find.

Description

This is a Starboard Ships Lantern Cocktail Shaker made by Asprey & Company and marked as such. I believe there were three different colors made, green to designate Starboard, the right side, Red to designate Port, the left side and a clear one. It is in real good shape other than maybe needing a little polish if you like it shinier and there is a little fading to the wood handle.

I also have the Red, Port side one & if you want them both I would offer a 15% discount and free shipping.
